**Department of Music – Hybrid Performance/Composition Honors Project Guidelines**  
**Revised April 2023**

Students may complete an honors project in music in several different areas or combinations thereof: **composition**, culminating in a recital of original compositions; **performance**, culminating in a solo recital accompanied by program notes; **research**, culminating in a written thesis; or **hybrid**, honors project that combines research with either performance or composition. A hybrid research/performance honors project culminates in a half recital (30 minutes) coupled with a 25-40 page written thesis. A hybrid research/composition honors project culminates in a half recital of original compositions coupled with a 25-40 page written thesis. Projects should represent high achievement within the undergraduate academic setting, on a par with the best undergraduate work at any academic institution. Honors projects that combine areas must meet the stated requirements for both the areas being combined. Students with an overall GPA of 3.5 or higher may submit a proposal for an honors project in music. The deadline for submission of the proposal is February 15 of the junior year.

**Procedures to Submit Proposal for Performance Honors**

1. In the first week of October and the first week of November a “Call for Proposals for Honors Projects” is sent to all junior music majors with a 3.5 GPA or above.

2. By January 15th of the Junior year, student should schedule a meeting with the Honors Coordinator to discuss the Emory College Honors Program as it is fulfilled in the Music Department. In this meeting the student should have a general idea about their recital/project and should have approached the faculty member who will serve as the primary advisor for the honors project. Artist Affiliates are not to be named primary advisors but may serve on the committee. The primary advisor will need to agree to provide regular guidance and input to the student. In the case of performance honors where the applied instructor is an artist affiliate, the primary advisor and artist affiliate will work together in advising the student and assuring that appropriate deadlines are met. In every case the student should inform any faculty involved about the time and commitment required.

3. By February 15 of the Junior year, prospective honors students must submit a written proposal (detailed below) to the Director of Undergraduate Research for review and guidance. **The Honors proposal must be signed by the primary advisor and artist affiliate, if applicable.** Apart from ECAS Honors eligibility, student eligibility in Music is based upon the quality and rigor of their prior work. Faculty consideration of an honors proposal will be based on student eligibility, the merit of the proposed recital program, portfolio, or research project, and the faculty advisor’s assessment of the student’s work at that juncture. Approval of signed proposals is granted by the primary advisory. Any changes in program, personnel, including primary faculty advisor or applied music instructor will require approval from the
Performance Committee. Once approved the student must meet with the Director of Undergraduate Research and agree to meet all deadlines associated with the project. Performance and Composition Honors students must schedule dates and times with the appropriate Schwartz Center (or PAS) staff, keeping in mind that all honors projects must be complete before the second week of April.

For Composition/Performance Honors: It is assumed that the two areas represented in the honors project will be part of a cohesive performance. This does NOT mean that every piece must be related one to another. Repertoire for the Hybrid honors performance portion should be no more than 30 minutes in length. Changes in repertoire must be approved by the primary advisor(s) and Artist Affiliate, if applicable. Changes in repertoire cannot be made after October 1st of the senior year and must be approved by the advisor. Modifications to the Composition program due to logistics or personnel may be approved by the major advisor and the Director of Undergraduate Research. By October 1st of the senior year any changes to instrumentation and/or personnel must be finalized and approved by the major advisor.

The Proposal for Composition/Performance Honors should include
1) a Table of Contents of the composition portfolio, even if the works are as yet untitled or incomplete, with estimated timings for each work
2) a timeline that details when work on each composition will be completed and if a preliminary performance has been scheduled prior to the honors recital
3) a short paragraph describing each work
4) a rehearsal schedule of the compositions
5) a listing of personnel required to perform both the recital and composition portions of the project
6) a budget that details expenses such as fees for performers, costs of copying parts, and purchase of scores
7) a listing of repertoire to be performed on the performance half of the recital
8) a timeline of learning and memorizing works in #7.

Students may apply for funding assistance through other sources, such as the Friends of Music or the SIRE Research Program. Consult the Director of Undergraduate Research for more information.
Honors Committee

Once the Honors Proposal has been approved, an Honors Committee will be chosen by the student in consultation with the Honor Coordinator. The committee shall be composed of the permanent full-time faculty honors advisor, one other regular faculty member from Music, and one faculty member from another department. An Artist affiliate can serve on the honors committee and vote as a fourth faculty member. A member of the permanent, full-time faculty must serve as advisor; an Artist Affiliate may not serve as advisor.

Program Notes for Performance Honors Recitals

General guidelines are 300-500 words for each grouping or piece, including analytical, biographical, and subjective information. Guidelines and examples of program notes are posted on the Honors Canvas site and a session on writing program notes is provided by the Honors Coordinator prior to January 30th of the senior year. Seven weeks prior to the recital date the student should have written their program notes and have them signed by the primary advisor. The program notes must reach the full honors committee six weeks before the recital, giving committee members time to edit before the final version is due to the Schwartz Center. The committee must sign off on the program notes five weeks before the recital date. The Schwartz Center staff will provide detailed instructions and deadlines for submission as well. For recitals in PAS, signed program notes are due to the Departmental Program Coordinator seven weeks prior to the recital date. It is the responsibility of the student to meet all program deadlines – if deadlines are not met the recital may be canceled. Program notes should be printed in two formats, one for insertion in the recital program to be passed out at the honors recital (responsibility of the student); and one in electronic format to be submitted to the Honors Program ETC system. Text translations for vocal or choral works may need to be dealt with in a different manner and may require permission to print – consult with the Director of Undergraduate Research.

Coursework

- All Performance honors students will enroll in Mus495A for 3 credit hours. In the second semester of the performance honors project students will enroll in Full recital for 2 credit hours and Applied Mus320 for 2 credit hours and may also enroll in Mus495B for 1-3 credit hours. Mus495A, Mus495B and Full Recital do not count toward the general requirements for the music major. All college rules for drop/add apply to these two courses.

- In addition, the student must take one additional Category C course offered within the Music Department during the junior or senior year. This course may fulfill one of your two required general music electives.
Recital Hearing

A recital hearing must be scheduled one month prior to the recital date. All committee members and Area Coordinator must be present at the hearing. The purpose of the hearing is to determine if the student is sufficiently prepared to proceed with their recital performance.

Oral Defense

An oral defense project will be given at the end of the honors project, no later than April 8. All committee members must be present. The candidate will have the opportunity to demonstrate the knowledge and applied skills acquired as a result of the project, their project’s contributions to existing disciplinary knowledge, and to share the potential implications of these results for future projects. The committee will recommend one of the following to the College Honors Committee:

- **Highest Honors (summa cum laude):** completion of the program with exceptional performance, together with an overall average of 3.50
- **High Honors (magna cum laude):** completion of the program with outstanding performance, together with an overall average of 3.50
- **Honors (cum laude):** satisfactory completion of the honors program, together with an overall average of 3.50
- **No Honors:** any part of the program is incomplete or unsatisfactory

Satisfactory Progress

The student’s honors committee retains the right to withdraw honors eligibility and/or cancel an honors project or recital at any time if the work is not progressing at a rate that insures successful completion of the program.

Deadlines for Performance Honors Recitals

- February 15, junior year  Proposal (developed under the guidance of primary advisor) due to DUR include proposed recital program, signed by faculty advisor
- April 25, junior year  Proposal approval or denial, student may secure recital date
- Sept 30, senior year  Honors committee selection completed
- October or November  Attend scheduled meeting about writing program notes
- 7 weeks prior to recital  Program notes due to selected faculty readers
- One month prior to recital  Recital Hearing attended by ALL committee members Must be completed.
- 5 week prior to recital  Program notes must have obtained full committee sign-off
4 weeks prior to recital  Program notes submitted to Schwartz Center staff (Lisa Baron)
2 weeks prior to recital  Program draft made available to all committee members
April 8, senior year  Recital and oral examination completed
April 11, senior year  College deadline for submission of honors project. All submissions will be made electronically.

Instructions for Electronic Submission of audio/video materials is available in Woodruff library. The performance will be recorded and the student will receive a CD, DVD, and an upload-ready electronic file of the recital. The conversion to an upload-ready electronic file is done by the Schwartz Center staff. In the event that the audio/video materials cannot be converted to an electronic format by the deadline, turn in a copy of the CD and DVD along with your exam report with their signatures of your committee members. The library staff will then make the electronic files later.

Recording

The recital must be professionally recorded. The honors student will arrange for the recording through the Schwartz Center (or PAS) staff. The student will receive one downloadable URL of the performance.

Publicity

All publicity for the performance must be reviewed and approved by your honors advisor.
